VISION

To be a leading and trusted manufacturer of innovative packaging solutions, recognized globally for excellence, reliability, and long-term customer partnerships. With over two decades of industry expertise, Patkar Extrusions Ltd. and Jagannath Extrusion India Ltd. strive to set new benchmarks in quality, innovation, and sustainable growth.

MISSION

To understand our customers' unique requirements and deliver high-quality, reliable packaging solutions with consistent performance, timely deliveries, and competitive pricing. We are committed to exceeding customer expectations through continuous innovation, operational excellence, and a strong focus on client satisfaction.

QUALITY POLICY

Quality is the foundation of everything we do. As an ISO 14000 : 2015 & ISO 9001 : 2015 certified organization, we continuously invest in advanced extrusion technology, modern equipment, robust quality systems, standardized processes, and skilled professionals. Our commitment to maintaining the highest quality standards ensures reliable products, consistent performance, and complete customer confidence.

House to Complete Packaging Solutions

01

Flexible Packaging Films

- Stretch film , VCI Stretch Film
- Polymer Bonded Masking Film, PE Soft Film, PVC LLDPE Cling Film (Food Grade)
- Anti Fogging Film, PVC Cling Film (Industrial)
- LDPE Shrink Film, Compostable Stretch Film

02

Industrial Bulk & Utility Bags

- Garbage Bags, Compostable Garbage Bags, Liner Bags
- HDPE/PP Fabric & Bags, Grow Bags
- FIBC Bags

03

Interior & Roofing solutions

- uPVC Roofing Sheet
- PVC Foam Sheet
- WPC Door Panel
- Co Extruded / PP Roofing Sheets

04

Protective Packaging solutions

- Anti Slip Sheet, Air Bubble, Box Strapping
- Angle boards, Edge Protector (Inner & Outer)

FLEXIBLE PACKAGING FILMS

STRETCH WRAPPING FILM

Patkar Extrusions Pvt. Ltd. & Jagannath Extrusion India Ltd. are your trusted source for premium-quality Stretch Wrap (Pallet Wrap) Films.

Stretch Wrap is a highly stretchable film used to securely wrap palletized goods, keeping products tightly bound and protected during storage and transportation.

Features & Benefits

- High stretch with excellent load stability.
- Strong tear and puncture resistance.
- Protects against dust and moisture.
- Available in Hand & Machine Grade.
- Custom sizes, gauges, and colors available.

Manufacturer

- PEPL
- +
- JEIL

Thickness	Film Width	Yield	Capacity
13 - 200 mic	75 - 3000 mm	Up-to 300%	1000 MT/month

VCI STRETCH FILMS

VCI Stretch Films that provide effective corrosion protection for ferrous and non-ferrous metal components during storage and transit.

Our advanced multi-layer VCI technology releases corrosion-inhibiting vapors that form a protective shield on metal surfaces, eliminating the need for oils or greases while keeping products clean and ready for use.

Features & Benefits

- Provides long-lasting corrosion protection.
- Suitable for multi-metal applications.
- Available in Hand & Machine Grade rolls.
- Custom widths, gauges, and lengths.
- Ideal for wires, rods, tubes, sheets, coils, and fabricated metal parts.

Thickness	Film Width	Core ID
23 - 100 mic	75 - 1200 mm	76 mm +/-1

Manufacturer : ● PEPL + ■ JEIL

POLYMER BONDED MASKING FILM

It is a multi-layer protective film with a specially formulated adhesive layer that safeguards surfaces from dust, scratches, and damage during manufacturing, storage, and transportation.

Features & Benefits

- Clean, residue-free removal.
- Protects against dust and scratches.
- Excellent adhesion and easy peel-off.
- Custom sizes and adhesion levels.
- Suitable for Acrylic, PC, PVC, PP, HDPE, Metal Sheets & Glass.

Manufacturer : ● PEPL + ■ JEIL

PE SOFT FILM

PE Soft Film can be used as a replacement for PVC film and is a soft, low barrier, and high clarity film.

It can be used in packaging of a variety of products, for example mattress covers, textile and garments packaging, merchandise bags, etc.

Manufacturer : ● PEPL + ■ JEIL

PVC / LLDPE Cling Film (Food Grade)

PVC / LLDPE Cling Film provides a secure, transparent seal that protects food from dust, moisture, and contaminants while maintaining its freshness and quality.

Features & Benefits

- High clarity for excellent product visibility.
- Helps retain freshness and extend shelf life.
- Strong cling with easy dispensing.
- Hygienic and food-safe packaging solution.
- Ideal for meat, dairy, fruits, vegetables, and catering applications.

Manufacturer : ● PEPL

Thickness

10 - 80 mic

Film Width

100 - 1000 mm

ANTI -FOGGING FILM

Our Anti-Fogging Film is specially engineered to spread condensed moisture into a thin, transparent layer, preventing fog formation and water droplet buildup on the film surface.

Features & Benefits

- Prevents fog and condensation.
- Maintains clear product visibility.
- Reduces water droplet formation.
- Ideal for food packaging and greenhouse applications.
- Available in custom sizes and specifications.

Manufacturer : ● PEPL

PVC Cling Film (Industrial)

A specialized protective barrier designed for sensitive electrical components, cables, wire ropes, glass, and high-gloss metal surfaces.

Features & Benefits

- Protects sensitive components, cables, and wire ropes from environmental wear.
- Prevents scratches on high-gloss metal and glass
- Lift or strip away effortlessly without leaving sticky film, marks, or surface haze.

Manufacturer : ● PEPL

Thickness

10 - 80 mic

Film Width

40 - 1000 mm

LDPE SHRINK FILM

LDPE Shrink Film is a high-performance packaging film that tightly conforms to products when heat is applied, providing excellent protection, load stability, and an attractive finish during storage and transportation.

Features & Benefits

- Superior strength and durability.
- Excellent shrink performance.
- Protects against dust, moisture, and damage.
- Cost-effective alternative to traditional packaging.
- Ideal for cartons, pallet loads, wooden products, and industrial goods.

Manufacturer : ■ JEIL

Thickness

30 - 75 mic

Film Width

300 - 1450 mm
(TUBULAR)

COMPOSTABLE STRETCH FILM

Patkar Compostable Stretch Film is a sustainable packaging solution that offers excellent stretchability, load stability, and puncture resistance for secure pallet wrapping.

It delivers reliable packaging performance while helping reduce environmental impact, making it an ideal choice for eco-conscious industrial packaging applications.

INDUSTRIAL BULK & UTILITY BAGS

GARBAGE BAGS

Plastic Garbage Bags are a convenient and sanitary way of handling garbage. Plastic garbage bags are fairly lightweight and are particularly useful for messy or wet rubbish. Also useful for wrapping up garbage to minimize odour.

**Size As per requirement.*

Manufacturer : ● PEPL

COMPOSTABLE GARBAGE BAGS

Made from compostable materials, Patkar Compostable Garbage Bags provide the strength and convenience of conventional garbage bags while helping reduce environmental impact. These bags naturally decompose within 180 days under suitable composting conditions.

**Size As per requirement.*

LINER BAGS

We offer premium quality food grade Liner Bags made from virgin grade raw material. Liner bag acts as a protective solution for agro based industries, fertilizer industries etc. Liner bags are ideal to protect the commodities like sugar, fertilizers, chemicals, food grains etc. We also have a facility to manufacture jumbo bag liners, pallet cover and tarpaulins

Manufacturer : ● PEPL

Thickness

25 - 150 mic

Size Range

Tubing : 200 - 2500 mm
Sheet Size : 1 - 5 MT

HDPE/PP WOVEN FABRIC & BAGS

We offer PP/HDPE Woven Fabric from 50 GSM to 250 GSM that can be used for a variety of applications, such as making small woven sacks/bags, tarpaulins, geo-textiles, and FIBC jumbo bags. We offer up to 4000m width un-laminated fabric and up to 3000m width laminated fabric. We also offer finished bags in different sizes and colors, with liners and gusset customized as per customer's requirement.

Manufacturer : ■ JEIL

- ▶ BOPP Laminated Bags
- ▶ HDPE/PP Woven Bags With Liner
- ▶ PP Woven Gusseted Bags
- ▶ HDPE/PP Laminated Fabric

**Printing : Upto 6 Color flexographic printing possible on bags and roll.*

Grow Bags

Manufacturer : ■ JEIL

- ▶ Grow bags offer better Aeration to the soil and roots of the plants due to many holes provide in the entire surface of the bag.
- ▶ Grow bags offer quick and thorough drainage and prevents over watering of plants.
- ▶ Grow bags stay cooler and hence the plant's roots are less stressed during the hot summer season inside a grow bag as compared to the plants inside a plastic pot.
- ▶ Grow bags are extremely lightweight and easy to handle.

FIBC / JUMBO BAGS

We are an ISO 9001:2015 certified global supplier of FIBCs (Flexible Intermediate Bulk Containers), offering customized bulk packaging solutions for a wide range of industrial applications.

Our FIBCs are designed for the safe storage and transportation of bulk materials, offering high strength, durability, and reliable performance for diverse industrial applications.

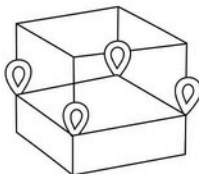

Product Highlights

- Custom-designed to meet specific requirements.
- High strength and excellent load-bearing capacity.
- Suitable for chemicals, cement, agriculture, minerals, pigments, and waste management.
- Available in various sizes, designs, and lifting options.

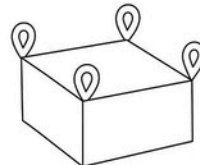

Manufacturer : ● PEPL + ■ JEIL

Bag Construction	U-Panel, Circular, 4 Panel
Bag Style	Type A bags, Builder bags, Baffle bags, Platten bags, UN bags, Single and Double loop bags, Tunnel bags, Dust proof bags, Sling bag, Bag with Liner tabbing, Container bags.

uPVC ROOFING SHEET

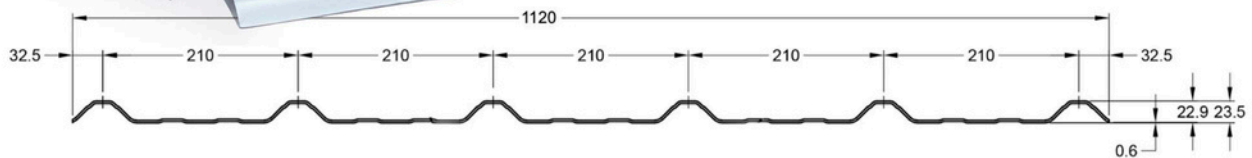

Engineered for peak performance and durability, uPVC Roofing Sheets from the house of Patkar are manufactured at our advanced facility in Dahej, District Bharuch. Built using high-tech machinery and premium polymers, they deliver superior, long-lasting protection for any structure.

Key Features

- Crafted using high-tech machinery, premium-grade polymers, and specially formulated chemical compounds.
- Produced under stringent quality control standards to guarantee an exceptional finish and ultimate durability.
- Built to withstand harsh and demanding environmental conditions without deteriorating.
- Delivers superior thermal and sound insulation to maintain cooler, quieter interiors.
- Features excellent waterproofing performance to protect your investment against heavy rainfall and moisture.

Recommended Tools:

Drilling Machine, Hacksaw Blade, Saw, Hammer/Mallet, Pliers, Snips, Chisel, Woodworking Square.

Recommended Adhesives:

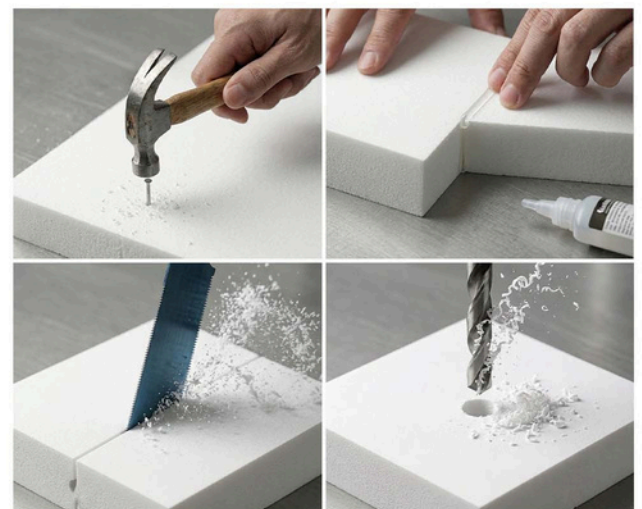

Cement Solvent Adhesive (PVC to PVC), Silicon Based Adhesive (PVC to Laminate), Silicon Based Wood Adhesive (PVC to Veneer).

Recommended Accessories:

Screws, European Series Hinges, L-Hinges, Wax Filler.

BEST RECOMMENDED FOR

Signage

Kitchen Cabinets

Office Furniture

Wardrobes

FEATURES

100% Water Proof, Termite Proof, Borer Proof and Rust Proof.

100% Weather Resistant and Fire Retardant.

Resistant to Chemicals and Corrosion.

Lightweight, Strong, and Easy to Work & Process.

Excellent Sound and Thermal Insulation.

Suitable for Both Indoor & Outdoor Applications.

Suitable for Direct Digital Printing.

Suitable for Film Lamination, Painting, and Lacquering.

100% Recyclable.

Fungus and Bacteria Resistant.

WPC DOOR PANELS

Crafted using advanced technology and a premium wood-fiber polymer blend, Patkar WPC (Wood-Plastic Composite) Door Panels combine sleek aesthetics with unbeatable durability for modern construction and interiors.

- Combines wood fiber and high-grade polymers for exceptional strength and stability.
- Water-resistant, termite-proof, and borer-proof for long-lasting indoor or outdoor performance.
- Highly resistant to warping, cracking, and corrosion over time.
- Features a smooth, dimensionally stable surface ideal for painting, laminating, routing, and fabrication.

PROTECTIVE PACKAGING SOLUTIONS

PLASTIC SLIP SHEET

Engineered for pallet-less material handling, Plastic Slip Sheets provide an efficient, cost-effective transport solution that slashes shipping expenses while maximizing storage capacity.

Push-Pull Compatibility: Designed for unitized loads with push-pull forklift attachments. **Dual-Surface Grip:** High-friction top locks loads; low-friction bottom allows smooth sliding. **Cost & Space Efficient:** Lightweight, compact design lowers shipping costs and saves storage space. **Heavy-Duty Performance:** Built for demanding material handling to optimize workflow.

Manufacturer : ● PEPL

AIR BUBBLE

Air Bubble Film is a transparent, protective packaging solution designed to safeguard fragile, delicate, and sensitive items during transit and storage. Its air-filled bubbles provide superior cushioning against impact and vibration.

- Air-filled bubbles absorb impacts and vibrations to prevent damage.
- Available in various bubble sizes and can be layered for added cushioning.
- Transparent material allows easy item identification without unwrapping.
- Perfect for protecting glassware, electronics, ceramics, and sensitive items.

3/4/5/6 mm

EDGE PROTECTORS (INNER & OUTER)

Crafted from high-quality laminated paperboard, Edge Guards provide essential corner and edge protection for goods during storage, handling, and transport. They reinforce palletized loads and prevent damage caused by impacts, compression, or high-tension strapping.

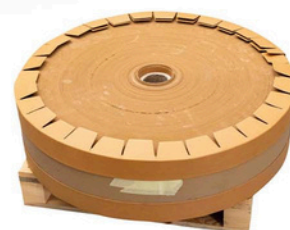

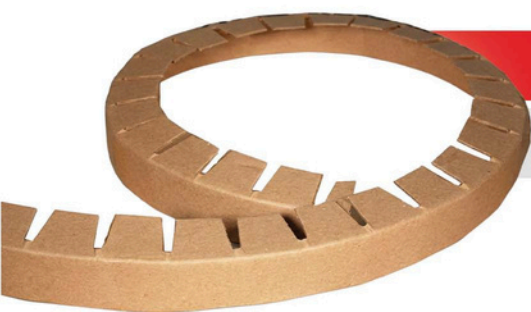

- Safeguards vulnerable product borders from impact, crushing, and strapping damage.
- Evenly distributes strapping tension across cartons, glass, metal sheets, and furniture.
- Reinforces pallets to allow safer, higher stacking during transit and storage.
- Available in both Inner and Outer options to fit various packaging setups.
